A20 MID-YEAR BUDGET AND PERFORMANCE ASSESSMENT REPORT FOR THE PERIOD ENDING DECEMBER 2024 6/1/1- (2024/2025)

Report: Executive Mayor: 2025-01-14

1. PURPOSE

1.1. The report is submitted to ensure that Council is able to exercise its oversight responsibility over the financial management of the municipality.

2. BACKGROUND

2.1. The mid-year budget and performance assessment report (section 72 report) is compiled in terms of section 72 of the Municipal Finance Management Act, 2003; which stipulates as follows:

72. (1) The accounting officer of a municipality must by 25 January of each year-(a) assess the performance of the municipality during the first half of the financial year, taking into account-

(*i*) the monthly statements referred to in section 71 for the first half of the financial year.

(ii) the municipality's service delivery performance during the first half of the financial year, and the service deliver targets and performance indicators set in the service delivery and budget

implementation plan.

(iii) the past year's annual report, and progress on resolving problems identified in the annual report; and

(b) submit a report on such assessment to-

(*i*) the mayor of the municipality;

(ii) the National Treasury; and

(iii) the relevant provincial treasury.

(2) *The statement referred to in section* 71(1) *for the sixth month of a financial year*

(3) The accounting officer must, as part of the review:

(a) make recommendations as to whether an adjustments budget is necessary: and

(b) recommend revised projections for revenue and expenditure to the extent that this may be

necessary.

In response to the indicated requirements, this Report will incorporate the following main elements:

- (1) An analysis of the budget performance of the Municipality, as reflected in its section 71 budget reports for the first six months of the 2024/25 financial year; and
- (2) An interpretation and assessment of the indicated analyses by the Accounting Officer; including subsequent recommendations and actions envisaged to improve the Municipality's planned service delivery and budget performance.

3. DISCUSSION

- 3.1. The content and format of this report for the Mid-year assessment ending 31st December 2024 is based upon the consolidated monthly electronic reports submitted to the Provincial and National Treasury. The statement contains the following statements:
 - Statement of Operating Revenue & Expenditure Part 1;
 - Actual Capital Acquisition –Part 2;
 - Cash Flow Statement Part 3;
 - Age Analysis of Debtors & Debtors Payment Statistics Part 4;
 - Age Analysis of Creditors Part 5;
 - External Investments Part 6;
 - Supply Chain Report (Deviations) Part 7; and
 - Grants & Subsidies Part 8.

Statement of Operating Revenue & Expenditure – Part 1

The statement is assessed by summarizing how the municipality incurs its revenues and expenses through both operating and none operating activities. It also shows the net profit or loss incurred over a specific accounting period.

A Profit & Loss statement provides information on the operation of the municipality. These include service charges and the various expenses incurred during the processing as well as the rendering the services

The statement is prepared on a similar basis to the prescribed budget format which details revenue by source type and expenditure by category and/or input type.

To ensure that there is a continuous implementation of debt collection, a plan should be developed that will focus on the various categories of customers (business, residential, government, farms etc) with a clear time frames and clear activities to be embarked on. The plan should also include the various resources required (human resources, vehicles, machinery & equipment, etc.) to enable the implementation of debt collection.

The primary reason for the poor revenue collection is the municipality's current credit balance of R116 085 391.16, which resulted from corrections made to property rates due to previous incorrect billing. Despite improvements in the billing process, collection rates remain low, as many of our major consumers, including commercial entities and government departments, currently have substantial credit balances. The situation is further aggravated by the large number of households not purchasing electricity, which prevents the municipality from breaking even. Additionally, we are still grappling with a significant number of estimated water meter readings, leading to either under-billing or overbilling, further contributing to the instability in our revenue collection.

Transfer & Grants Subsidies (Indigent support)

.

To date 2 785 households are active on registered households for indigent support compared to a total of 2 378 for first quarter ended 30 September 2024 and total of 2 136 for the period ended December 2023. The current outstanding debts balances of the registered indigent households amounted to R126 228 262,24 as at 31 December 2024, while subsidies for the current month amounted to R2 228 262,24.

Creditors Age Analysis- Part 5

The creditors age analysis indicates an analysis of unpaid received invoices, aged by due date. The creditors are broken down into eight ageing periods. The Creditors Age Analysis shows an outstanding amount of R3,3 billion of which R2,6 billion is owed to Eskom. The municipality has taken several initiatives to ensure that the arrears amount owed to Eskom is paid. The latest outstanding amount for Department of Water and Sanitation is R599 million.

The Municipality's outstanding trade creditors amounts to R24 million. The Municipality has an outstanding payment to Auditor General an amount of R6 million. The Municipality owes R14 million on retention withheld for the reporting period.

The Municipality owes SARS R 49 million relating to PAYE deductions and we do not owe VAT. The Municipality does not maintain sufficient working capital thus resulting in statutory payments and some other creditors not being paid timeously. The outstanding creditors are continuously increasing thus indicating that the Municipality is entering into obligations that it's unable to service. Unless all interventions are implemented (Revenue enhancement strategy, financial recovery, cost curtailments & installation of smart meters) the Municipality will face a severe financial sustainability issues & distress, that might require the Municipality to consider interventions as entrenched within the Municipal Finance Management Act.

MID- TERM ASSESSMENTS

After a comprehensive assessment of the municipality's financial position, performance, and cash flow for the first half of the financial year, it is essential for the council to consider presenting an adjustments budget based on the following:

1. Revenue and Expenditure:

The municipality achieved **R775.1 million** in revenue during the first half of the year, exceeding projections by **R151.5 million**. However, expenditures totaled **R845.6 million**, resulting in an operating deficit of **R70.5 million**. This highlights ongoing financial pressures despite improved revenue performance.

2. Collection Rates:

The average collection rate stood at **69%**, falling short of the **85%** target in the original budget. This shortfall is primarily due to a **R116.1 million** credit balance from previous property rate corrections, as well as issues such as non-payment for electricity and reliance on estimated water readings.

3. Capital Grant Performance:

Grant spending reached **72%**, with some grants fully utilized (e.g., INEP). However, underperforming areas require acceleration plans to improve project execution and ensure full grant utilization.

4. Cash Flow:

Although the municipality has a favorable bank balance of **R44.1 million**, liquidity challenges persist due to **R3.3 billion** in outstanding creditors, including **R2.6 billion** owed to Eskom.

5. **Debtors**:

Outstanding debtors total **R2.2 billion**, with **R2 billion** overdue by more than 90 days. Household accounts contribute the largest share (**R1.7 billion**) to the outstanding debts

Non-financial SDBIP Performance – Part 9

- 9.1 The 2024/2025 SDBIP was approved by the Executive Mayor on 2024-07-02 and a memorandum was issued informing departments of the approval of the SDBIP as well as dates by which quarterly reports will be due for submission.
- 9.2 This SDBIP report is done in line with the National Key Performance Areas (KPAs) for Local Government which are:
 - (a) Basic service delivery
 - (b) Municipal transformation and organisational development
 - (c) Local economic development
 - (d) Municipal financial management and viability
 - (e) Good governance and public participation
 - (f) Spatial rational

9.3 Formulation of the problem

- 9.3.1 It must be noted that as and when submissions are received, the information is checked against the supporting portfolio of evidence (PoE) to verify if the report and supporting PoE corresponds. Communication is with each Department to ensure submissions are made as required.
- 9.3.2 A Request for Information (RFI) was issued on 2025-01-11 by Internal Audit for submissions to be made by 2025-01-14. All reports were submitted to Internal Audit as per the RFI.
- 9.3.3 Section 72 of the MFMA requires that an assessment of municipal performance for the first six months of the financial year be done, the 2023/2024 midyear performance assessment is based on the audited 1st and 2nd

quarter performance reports and herewith is a summary of the performance information per Key Performance Area (KPA) for the period 1^{st} July – 31^{st} December 2023:

9.3.8 The 2024/2025 midyear SDBIP performance report is attached to the report as Annexure "A";

- 9.3.9 The following are matters to be noted in respect of the overall midyear performance and achievement against targets for the period ended 31st December 2024:
 - (a) The overall midyear performance of 87%, which is a slight improvement in performance when compared to the midyear performance for the 2023/2024 financial year which was 76%;
 - (b) Budget expenditures, commensurate to the approved budgets is not reported for all achieved targets, where applicable;
 - (c) The said midyear performance will be used as the basis for reviewing and adjusting indicators (performance measures) and targets for the remainder of the year, noting the 2023/2024 audit findings raised in respect of performance information.

Outstanding matters on the past year's annual report - Part 10

- (a) As prescribed in terms of section 72(1)(a)(iii) of the MFMA the Accounting Officer must also assess the performance of the municipality in the first 6 months taking into account the past year's Annual Report, and progress on resolving the problems identified in the Annual Report. The detail of progress made with the implementation of corrective measures to address findings will be further reflected in the 2023/2024 audit action plan that has been developed;
- (b) An assessment of implementing the drivers of internal control based on significant findings and deficiencies as identified during the audit by AGSA of the financial statements, the annual performance report and compliance with legislation, significant deficiencies occur when internal controls do not exist, are not appropriately designed to address the risks as identified, or are not implemented. These either had caused, or could cause, the financial statements or the annual performance report to be materially misstated, and material instances of non-compliance with legislation to occur.
- (c) The following are key findings as raised by the Auditor-General in the 2023/2024 Audit Report:
 - (i) The municipality maintained its qualification audit outcome of a qualification, noting that similar findings were raised in previous year;
 - (ii) The Municipality's opinion on annual performance report remains unchanged as a disclaimer obtained in the previous financial period.
 - (iii) AG's synopsis of the basis of the qualification on the AFS is outlined below:
 - Irregular expenditure
 - The municipality did not include all instances of expenditure to the financial statements, as required by section 125(2)(d) of the MFMA, as the municipality did not have adequate systems to identify all prior year's irregular expenditure. I was unable to determine the full extent of the understatement of irregular expenditure stated at R197, 86 million (2022-23: R143, 64 million) in note 48 to the financial statements as it was impracticable to do so. Consequently, I was unable to determine whether any further adjustments made to the irregular expenditure in the prior period adjustment disclosure in note 41 to the financial statements were necessary.
 - Property, plant and equipment
 - In the prior year, the municipality did not appropriately account for changes in useful lives for some of the property, plant and equipment in accordance with GRAP 17, *Property, plant and equipment*. Changes in remaining useful lives of the assets that were incorrectly accounted as an error instead of change in accounting estimates. Consequently, the opening balance of the property, plant and equipment was understated by R26,86 million and the opening balance of accumulated depreciation was overstated by the same amount
 - Segment reporting

- The municipality did not accurately disclose segment reporting in the financial statements, as required by Grap 18, *Segment reporting*. The segment information disclosed for expenditure, assets and liabilities did not reconcile back to the financial statement amounts. Consequently, segment information was misstated by expenditure R235,68 million, assets R1, 66 billion and liabilities R684,27 million. Additionally, the

comparative amounts in the segment information disclosed for revenue was misstated by R22,14 million as it was not adjusted with the restated amounts as per the prior year adjustment note.

- Cash flow statement
 - Payment to employees

The municipality's cash paid to employees was incorrectly disclosed as the calculation did not account for movements of accrued leave and accrued bonus which constitute a departure from GRAP 2, *Cah flow statement*. Consequently, the comparison of employees is understated by R50,83 million (2023: R32.06 million)

- Sale of goods and services

The municipality's cash from sale of goods and services was incorrectly disclosed as the calculation did not account for interest on trade receivables, furthermore the incorrect opening balance for trade receivables was used which constitute a departure from GRAP 2, *Cash flow statement*. Consequently, the sale of goods and services is understated by R122,10 million and the comparative amount was overstated by (2023: R19,8 million)

- Suppliers

The municipality's cash paid to suppliers was incorrectly disclosed as it was calculated using the incorrect opening balance for trade payables which constitute a departure from GRAP 2, *Cash flow* statement. Consequently, the suppliers are overstated by R31,82 million in the cash flow statement for the comparative amounts.

In respect of the audit of the annual performance report, which is included on the audit report as other matters, the following findings were raised that will be attended to as part of the post-midyear adjustment process, in line with the audit action plan developed:

- (a) I could not determine the accuracy of various reported achievements, as the indicators were not well defines, and I could not verify the methods and processes used to measure the achievements. Consequently, the reported achievements might be more or less than reported and were not reliable for determining if the targets have been achieved;
- (b) I identified misstatement in the annul performance report submitted for auditing. These material misstatements were in the reported performance information of basic service delivery and infrastructure development. As management subsequently corrected some of the misstatements, I raised material findings on the usefulness and reliability of the reported information. Those that were not corrected are reported.

Other issues relating to the annual report will be more comprehensively dealt with in the annual report and the supporting audit action plan.

RECOMMENDATIONS BY THE EXECUTIVE MAYOR
